HSP GRIPEN – GRAPPLES HEAVY DUTY (HD)

The grapples of the Heavy Duty model are more powerful and more rigid: thicker steel plates, larger rotator plate, reinforced lower boom tubes. They are designed for heavy-duty and difficult work and are particularly suitable for forwarders.

	Maximum pressure (MPa)	Maximum Load (kg)	Width (mm)	Height open grapple (mm)	Height closed grapple (mm)	Closed length (mm)	Maximum aperture (mm)	Weight (kg)
HSP 015 HD	23	2.000	355	685	510	740	1.170	150
HSP 020 HD	23	2.000	355	645	510	780	1.400	160
HSP 025 HD	23	3.500	434	690	540	800	1.450	250
HSP 028 HD	23	3.500	434	635	530	830	1.690	260
HSP 035 HD	23	5.000	472	600	565	885	1.880	285
HSP 040 HD	23	5.000	472	630	610	970	2.070	320
HSP 050 HD	23	5.000	472	830	615	1.080	2.110	340
HSP 055 HD	23	5.000	472	715	695	1.110	2.390	365
