HSP GRIPEN – GRAPPLES STANDARD

The twin cylinders of the Standard grapples provide low and uniform axle load, which results in less wear. The design of the grapples allows the wood rollers to roll smoothly, fill the grapples efficiently, and ensure that the load stays in place. It works quickly and easily on all types of material.

	Maximum pressure (MPa)	Maximum load (kg)	Width (mm)	Height open grapple (mm)	Height closed grapple (mm)	Closed length (mm)	Maximum aperture (mm)	Weight (kg)
HSP 015	23	2.000	355	685	510	740	1.170	120
HSP 020	23	2.000	355	645	510	780	1.400	130
HSP 025	23	3.500	434	690	540	800	1.450	225
